A Quick Matrix Guide to Popular Automation Frameworks

When you start to investigate your path through Automation Testing Software solutions these days, you learn very quickly that there is a large selection of frameworks to choose from.

Each of the options will tell you, of course, that they are the best at what they do and don't always make it clear what it is that they don't do. This can make your investigation more complicated and annoying than it should be. To help you on your journey, we have put together a matrix of some of the most popular options out there, and some of the most important factors that you might be considering when looking at each. It won't answer all of your questions, but it should help to narrow your search.

Tool	Record & Playback	Web	Desktop	Mobile	API	Free Version	Best Use
Selenium	No	Yes	No	Yes	No	Yes	Web
Selenium IDE	Yes	Yes	No	Yes	No	Yes	Web
UFT	Yes	Yes	Yes	Yes	Yes	No	All
Ranorex	Yes	Yes	Yes	Yes	Yes	No	All
